

LES DIEUX SONT MOQUEURS

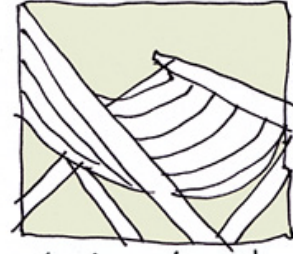

FRANÇOIS MATTON

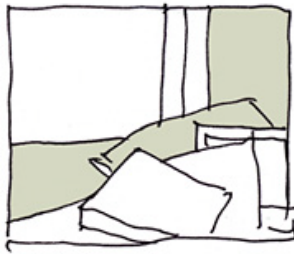

l'humanité vieillit

la précarité augmente

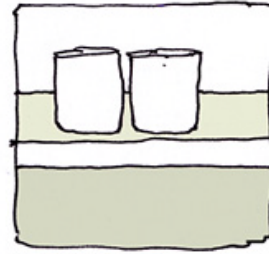

les choses changent

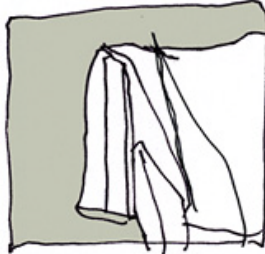

la tentation existe

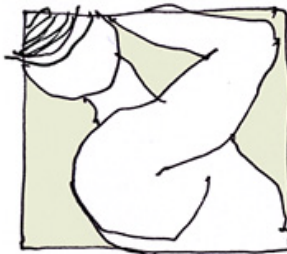

le débat est limité

des cellules s'isolent

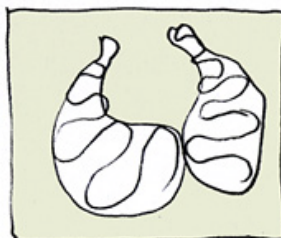

la natalité décroît

des élections se préparent

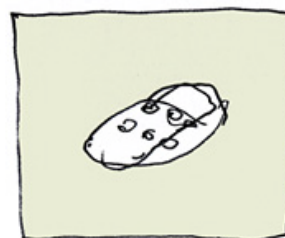

la question se pose

la France reste prolifique

l'état n'est pas à la hauteur

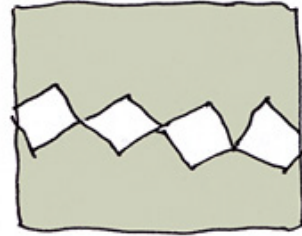

l'Amérique avance

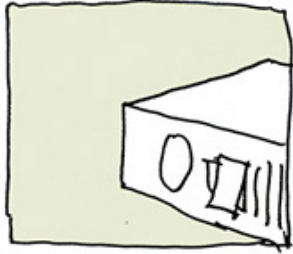

Paris capitule

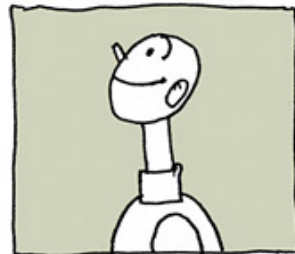

le tableau diffère

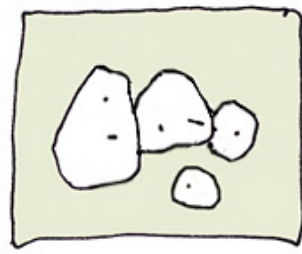

le noir revient en force

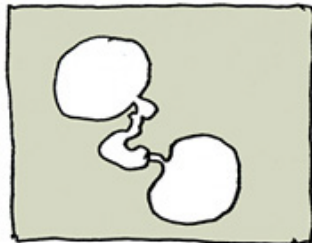

l'habitude de la riste se perd

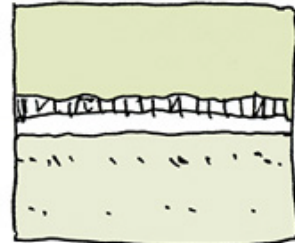

la sociologie explique

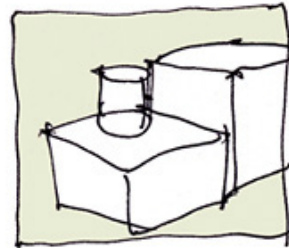

le paysage est suspendu

les élus tirent la sonnette

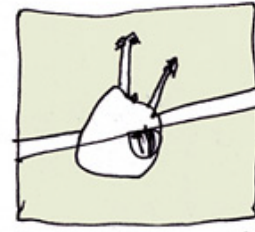

les dieux sont moqueurs

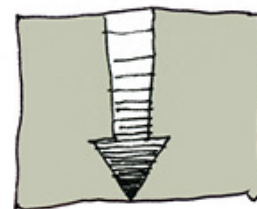

l'économie flambe

la fête bat son plein

le débat est ouvert

la fin est annoncée
